## PROFILE

HIGHLY MOTIVATED AND RESULTS DRIVEN FULL STACK DEVELOPER WITH 3+ YEARS OF EXPERIENCE IN DEVELOPING AND MAINTAININGWEB & MOBILE APPS.
SKILLED IN USING VARIOUS TECHNOLOGIES AND FRAMEWORKS SUCH AS JAVASCRIPT, NODE.JS, PHP, REACT AND REACT NATIVE.

With a strong drive for success and a commitment to delivering exceptional results, I leverage my technical skills and analytical mindset to build high-performing solutions that meet the needs of my company's business and end-users alike. Whether working on a challenging project or collaborating with a team, I am dedicated to finding innovative solutions that drive success and make a real impact.

## WORK EXPERIENCE

### Full Stack Developer – Mobile Brain               2021 – present

- in charge of development and maintenance of mobile application, focusing mainly on the backend aspects. I am responsible for ensuring that the backend systems for the apps are functioning smoothly and effectively, as well as for implementing and maintaining the CRM system that serves thousands of apps. My skills in a variety of technologies enable me to deliver high- quality products.

notable projects I've worked on:

- rewriting parts of the company's system from PHP to Node.js.
- transferring servers from dedicated to AWS.

### Lecturer in web developing course – HackerU           2023-present

Teach various modules including Javascript foundementals, MySQL and PHP.
Impart best practices in web development to students.
Guide students through their initial steps in the field.
